

# FORT ERIE INTERNATIONAL ACADEMY'S BACK-TO-SCHOOL COVID-19 PROTOCOLS

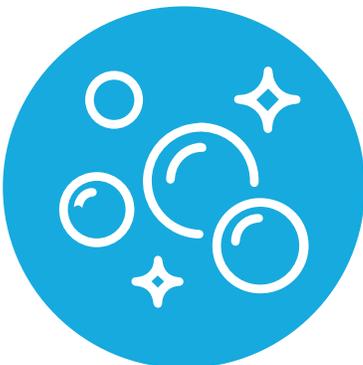

## PERSONAL SUPPLIES

All staff and students will receive a washable non-medical mask and a refillable personal-sized bottle of hand sanitizer to use throughout the school day.

## SANITIZATION STATIONS

In addition to the hand sanitizing stations we set up in March of this year, more stations will be added throughout that also include re-fill stations for personal bottle top up.

## CLEANING PROTOCOLS

The school will go through a deep clean before the school opens each day, while all high touch surfaces will be sanitized a minimum of three times a day leveraging cleaning and disinfecting products that follow the Ministry of Health guidelines. A cleaning log will also be posted in each room to track cleaning

## VISITOR PROTOCOLS

We will screen and limit the number of visitors we allow into the school.

## LIMITATION OF HIGH TOUCH ITEMS

We ask that students minimise the number of personal belongings brought into the school and that all items are labelled.

## COORDINATED SCHEDULES

FEIA is designing timetabling that will allow, to the greatest extent, for students to remain in contact with only their classmates and a single teacher for as much of the school day as possible.

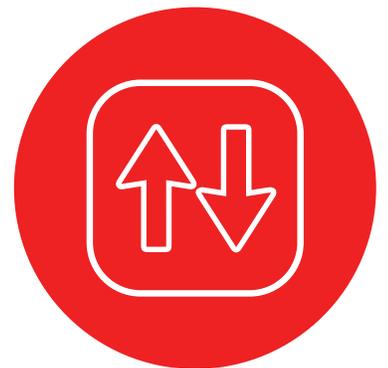

## TRAVELLING IN COHORTS

Timetabling will also allow for classroom cohorts to move through entrances and exits in a staggered fashion for an activity that occurs outside their primary classroom (i.e. lunch, recess etc.).

## ONE-WAY TRAFFIC RULES

One-way traffic signage and physical distancing markers will also be added to the Campus.

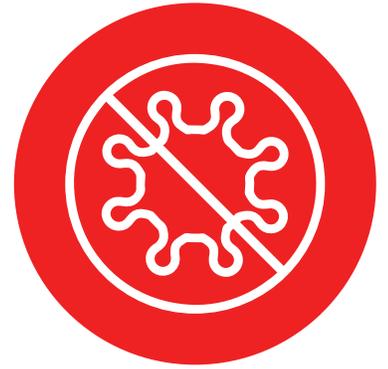

## CLEAR SIGNAGE

FEIA classrooms, hallways, washrooms and offices will all leverage signage to direct entry and exit in order to promote physical distancing.

## **INFECTION PROTOCOLS**

We are working with public health to establish protocols to prepare for the unlikely event of a student or staff member testing positive for COVID-19.

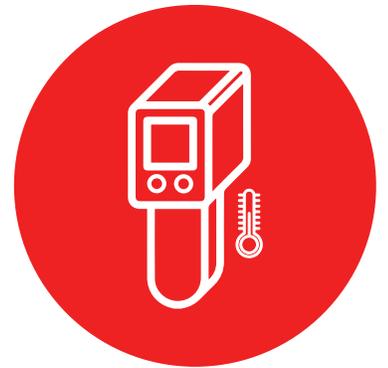

## **DIGITAL COMMUNICATION STRATEGIES**

We will leverage digital parent communications over traditional paper copy and are developing fact sheets explaining new protocols and links to helpful information, as well as detailed instructions regarding screening and pick-up/drop-off procedures and protocols if a child or staff person becomes ill to share with the FEIA Family prior to the start of school.

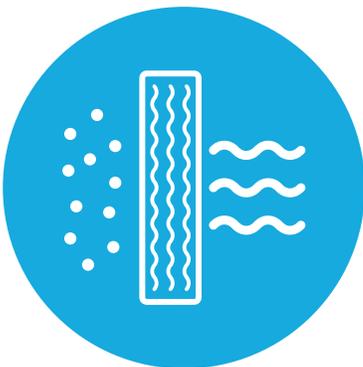

## **STUDENT TEMPERATURE CHECKS**

We have implemented temperature checks as students arrive, after lunch and (for our resident students) before bed.

## **AIR FILTRATION IMPLEMENTATION**

We have purchased a Hepa Filter unit/system for each classroom that will continually kill airborne bacteria/germs.
